

South Hill Primary School
Curriculum Overview
Year 6: Hazel and Sycamore

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
English	We will study the following topics/ books: • Diary writing Letters from The Light House	We will study the following topics/ books: • Mixed genre The Arrival Gee's Bend	We will study the following topics/ books: • Mixed Genre A variety of extracts and film clips	We will study the following topics/ books: • Non- chronological report Spiderwick	We will study the following topics/ books: • Narrative – mood and atmosphere including dialogue Gargoyles	We will study the following topics/ books: • 3rd person narrative Alma • Report writing – non chronological report Planetarium
Maths	We will study the following topics: • Place Value • Multiply/Divide by 10/100/1000 • Choosing effective methods for calculating • Problems solving with the 4 operations • Equivalent fractions	We will study the following topics: • Comparing and ordering fractions • Adding and subtracting fractions. • Fractions and decimal equivalents • Fractions, decimals and percentages • Formal written method	We will study the following topics: • Order of operations and algebra • Formal written method for long division • Area and perimeter • Angles • Reflection and translations	We will study the following topics: • Multiplying fractions • Dividing fractions • Ration and proportion • Volume and measures • Statistics – line graphs and pie charts • Algebra and sequences	We will study the following topics: • Statistics – mean averages • Known Facts and Calculation Strategies • SATs consolidation	We will study the following topics: • Financial maths • Theme Park Maths • Enterprise. • KS3 preparation
Science	Electricity We will learn that the brightness of a lamp or the volume of a buzzer is linked to the number and voltage of cells. We will also learn to use recognised symbols when representing a simple circuit in a diagram.	Light We will learn that light appears to travel in straight lines and use this to explain that objects are seen because they give out or reflect light into the eye. We will also learn why shadows have the same shape as the objects that cast them	Evolution and Inheritance We will learn that living things change over time, recognise that living things produce offspring and how plants and animals are adapted to their environment.	Living things and their habitats We will learn to describe how living things are classified and give reasons for classifying plants and animals based on specific characteristics.	Animals including Humans We will learn to identify and name the main parts of the human circulatory system and describe the ways in which nutrients and water are transported within animals, including humans.	
Computing	Computer Systems and Networks – Communication We will learn about the World Wide Web as a communication tool.	Spreadsheets We will learn to organise and modify data within spreadsheets	Variables in games We will learn what variables are and use them to create a simulation scoreboard using Scratch.	Sensing We will learn to use a simple online program to build and test in before transferring it to a physical device (Micro:bit) to create our own Micro:bit based step counter.	3D Modelling We will use 'TinkerCad' to learn how to produce 3D models	Web Page Design We will learn what makes a good web page and use this information to design and evaluate our own website.
History	WW2 – Leaders and daily life	WW2 - Warfare We will learn about the History of WWII and the impact it had on				The Mayans We will learn about the Mayan civilisation

South Hill Primary School
Curriculum Overview
Year 6: Hazel and Sycamore

	We will learn about the History of WWII and the impact it had on shaping Britain. Focus on evacuees, the Battle of Britain and significant leaders.	shaping Britain. We will focus on rationing, women at war, fighter planes and the Holocaust.			and the impact they had on the world.
