

Geography Progression Map

Giving extended descriptions of physical and human features of places around the world

Using maps, aerial photographs, plans and web resources to find out about a locality

Naming the largest desert in world

Explaining scale and use maps with a range of scales

Using OS maps to answer questions

Using more complex symbols and 6 figure

Creating own sketch maps for a field study

Biomes

Place Study

Ordnance Survey Maps

Year 6

Oceans/ Water cycle

Contrasting Localities

Understanding how time zones work

Locating tropics and Arctic and Antarctic circles

Carrying out a survey—accurately measuring and collecting information

Explaining how a locality has changed over time

Representing physical features with appropriate symbols on a map

Different jobs around the world

Comparing UK and non-EU country

Life on sea/ Life on land

Using an appropriate atlas to locate the oceans

Naming the home counties

Planning a journey between two places in the UK

Physical and human features of different localities

What makes a locality special

North, South, East, West on compass

Identifying basic human and physical features on a simple map

Understanding why cities are situated by rivers

Finding same place on globe

Main islands which surround the UK

Naming and locating 6 major cities in UK

Different and own views on an environment

Physical and human features of different localities

What makes a locality special

North, South, East, West on compass

Identifying basic human and physical features on a simple map

World's major rivers

Tropics of cancer and capricorn

Naming areas of origin of main ethnic groups of class and UK
