Reading books and reading records

At the start of their reading journey, pupils will have three types of reading books: Prime, Power and Pleasure. When pupils graduate from the Read Write Inc phonics scheme, they will have two types of books – Power and Pleasure.

Prime books will be changed **twice a week** on a **Monday and Friday**. Your **library day is on a Friday**. Pupils can choose a reading book they would like to read from their colour book band.

Pupils are expected to read regularly at home and have their reading record signed by an adult **5 times per week** in their reading record book.

PRIME Books are linked to a RWInc Book that is used in phonics sessions and has matching sounds. These books are essential for decoding and for early reading.

POWER Books are levelled by book bands, they are from a variety of reading schemes. These books give a structured approach to children developing their reading further.

PLEASURE Books are 'real books' found in the school library and class reading areas.

How can I help my child at home?

We would really encourage you to talk to your child regularly about what they have been learning about in school. A good starting point could be:

“Tell me about your day.”

We would also recommend:

- **Reading**- Ensure your child is reading at least 5 times a week and ask them questions about what they have read to ensure they understand and develop their comprehension skills. Read books to your child and try to use a wide variety of genres and types of book.
- **Verbal feedback**- Ask your child about their learning daily and find out about their school day. Ask them what conversations they have had with their class teacher about their learning.
- **Homework routine**- Set a weekly timetable so that your child gets into a good routine of doing homework, including reading, practising their spellings and times tables and completing homework tasks.
- **Learning through play**- Use games at home to practise key learning skills. For example, you could ask your child to write a story, act out a play, write a shopping list together, make a model, show you another way of completing a maths calculation - the possibilities are endless!
