

School Council News.

In Autumn 1, the whole school made some incredible suggestions regarding how we could make improvements to our School environment. In Autumn 2, the School Council chose their favourite options, which included more litter bins on the daily mile, the installation of a new kitchen for our D&T room and the introduction of behaviour monitors and golden dustpan which are awarded to the class who have maintained the tidiest cloak room over the week. All these suggestions actioned by Mrs Albery, Miss Wellbelove and our brilliant School PTA.

In Friday's Celebration Assembly (20.1.23) the children were asked to consider the question below and were given some examples such as; more theme days in School or more outdoor learning opportunities. We are really looking forward to hearing the children's suggestions. It would be wonderful if you could discuss any idea's you have with your child at home.

Spring 1 term's Question:

How can we make learning in your classroom more fun?
