

Netflix's Squid Game is set to become the streaming service's most successful show of all time, with huge numbers of viewers taking to social media to discuss each new episode. The South Korean thriller features some scenes of fairly brutal violence and is rated 15 by the BBFC. It follows a group of adults who compete to win innocent-looking playground games, but who are killed if they do not succeed at the tasks.

An unexpected success in terms of viewing figures, Squid Game's popularity is beginning to spread across various online platforms. There has been a slew of content created – ranging from memes to apps – that convey the violence of the show, so it is important for parents, carers and educators to understand the basis of Squid Game and the potential risks to young people who might be exposed to it.

What are the hazards for children?

Squid Game's 15 rating has not prevented clips and images from the show being uploaded onto social media sites such as [TikTok](#), with the #SquidGame hashtag being viewed more than 22.8 billion times. There have been reports of children who have accounts on these platforms inadvertently viewing gory, explicit scenes from the programme, and parents and carers should be mindful of the prevalence of these uploads.

The popularity of the programme has also led to [online challenges](#) based on various scenes, which see people taking part in seemingly innocent children's games. On the show, however, characters are executed if they fail in the game – and videos of people pretending to kill each other after competing in Squid Game-style contests are going viral on social media, where they are easily accessible to children.

What can trusted adults do?

As a parent or carer, keep a watchful eye on the content that your children are viewing. [Speak to them openly](#) and chat about how they have been spending time on their devices; let them ask questions, too. Ensure that the [parental controls](#) are activated [on your child's device](#) and that age-restricted child profiles are properly set up any on-demand services available through the family TV (such as [Netflix](#), in this case) to prevent inappropriate content being streamed.

If you see your child replicating the challenges from the show or hear them talking about scenes and characters from Squid Game, it would be a timely opportunity to discuss with them that the programme is not intended for children, that much of the content would be inappropriate for their age, and that the violence in the series is very realistic and often upsetting.
